

APPLE

**Grower
Packer
Exporter**

Cool Apples Corporate

Cool Apples company is an apple grower, packer and exporter of apples particularly, red delicious and golden apples.

The company was founded in 1991 in Yahyali, Kayseri, TURKEY. Our facility stores apples for local growers as well as for our own apples. These apple orchards grow some of the finest apples in the country due to the perfect growing climate of warm days and cool nights.

The facility houses temperature controlled refrigerated storage for apples to give customers the best storage conditions.

The total storage capacity of cool storage facility is 8,000 MT.

Apple Gardens

Apple gardens

Cool Apples is a well recognized producer and exporter of premium quality apples from TURKEY. Located in Yahyali, Kayseri in the heart of Anatolia of the famous fruit growing area.

Cool Apples have developed a modern apple plantation using the latest technology, mainly focused on producing red delicious and golden apples. The company has 2,000 acres of apple orchards and these apple orchards grow some of the finest apples in the country due to the perfect growing climate of warm days and cool nights.
